THE SINGER

SEWING MACHINES.

THE SINGER MANUFACTURING CO.'S NEW FAMILY MACHINE.—No other family Sewing Machine has so rapidly won favor in the household. The very large sales of that popular machine, as shown by official returns, far exceed those of any other company, and this factor result has been owing to its real merits—hence its great and growing popularity. It is simple in construction, easily understood, easily operated—dll its parts gli ding smoothly and noiselessly along—not liable to get out of order, has capacity for a great range an variety of work, sewing all kinds of cloth and with all kinds of thread, and with the numerous attachments for hemming, cording, sucking, quiliting.

Which open with spacious tables to sustain the work, and which fold into tables or boxes to protect the machines, when not in use, from dust and med-

- THE FOLDING CASES.

me fingers are made from choice woods, emished by ple ising designs, thus making our new illy machine not only an ornamental piece of uture, but in some of the more elaborately fin-ed machines, a work of real art. THE ATTACHMENTS

Of our new family machine, above referred to, are not only numerous, but highly useful for the purposes for which they were intended. They need only a trial to show their great value. Among the most recent of the attachments is the

EMBROIDERER

Monday and Tuesday evenings, February 22d and 23d, 1869. Extensive preparations which have secured the attention and approval of our customers that for embroidering, this the Hemmer, is one of the few instruments which will most please and satisfy the observer of its real value. It is so simple in structure, that any one who can sew on our machine c a use it, and willout instruction. It may be attached to or detached from the machine in an instant. Without a lengthy description, and even then, it would be difficult to describe the great variety of work that this little in strument will do. The reader must not suppose that what we speak of is a mere chain stitch operation, which is sometimes hum-rously termed embroidery. If desired, three colors of any kind of thread may be used at the will off the operator, by removing the spools in use and putting others in their stead; thus as many or as few colors are regulated. Different result may be produced by the manner in which the tensions are regulated. Different result may be produced while the machine is in motion by simply changing the tensions. Results vary according to the length of stickes, kinds, colors and tensions of the threads, as well as sizes of the needles used. The Embroiderer will use any kind of hread The use of zephyr worsted for certain purposes gives very pleasing results. In order to get a just idea of this valuable attachment it will be necessary to see it in oner. certain purposes gives very pleasing re-order to get a just idea of this valuable

Manufacturing Machines.—We would ask attention to our new Button hole Ma-chine, which is the only practical Button-hole Ma-

cently enlarged our Silk Mills in Newark, N J, and furnis sed them with the latest and most improved machinery, which is being operated by highly skilled labor. We know and feel the importance of not only supplying the users of our machines, but the trade generally with the best quality of Macanas Twist, which we sell by measure rather than by weight. The system of selling by weight has given manufacturers the opportunity of so heavily weighting Silk in the process of dyeling as not only to greatly injure its quality, but also convey a wrong impression about its quantity. In this respect we mean to be above suspicion. The manner in which the sizes of silk are gradusted is also a matter of great importance, but we use the greatest possible great importance, but we use the greatest possible care that the graduating shall be exceeding accurate. In addition to manufacturing from the best quality of raw silk, the evenness of thread and we think, be soon surpassed. Each spool of silk manufactured by µs, of any particular size or letter, irrespective of weight, contains the number of yards printed thereon. Length, strength, size, quality and finish of the thread are to be looked to rathe than weight. We are now silk manufacturers on a large scale, and feel that a large trade can only be retained by us in furnishing a rupecior erticle at a far price. If other brands of Twist be offered at tles; price than of rs, purchasers may rest assured that it is inferior in quality, deficient in quantity,

We have and shall keep in stock at our Central Office, and various agencies, Twist of all sizes, and of the various colors and shades of color in use, and which will be sold at New York prices.

their subscription with wood, will please bring it along. friends, Messrs, A. & G. Kenan, sold a Increased five years' old steer to Mr. D. Straw, of

10 cents per pound. WE are informed that the postoffice at Nevada, in this county, was entered by burglars last Sunday night, and three hundred dollars extracted from

the same. We also learn that considerable sick ness, among children, prevails in that locality at present.

Remember the dance.

REDUCTION.-The Wapakoneta Union has been reduced to seven column size The editor announces that lack of patronage and non-paying subscribers compelled him to make the reduction.

WITHIN the past two weeks, two gun accidents have occurred in this vicinity, each resulting in the necessity of amputating a finger. Dr. Ferris, we understand, was called upon to perform

enlarged. It presents a commendable appearance, is well managed and we on duty when the Court House was becongratulate the proprietors, Messrs, ing built.

all kinds of thread, and with the numerous attachments for hemming, cording, tucking, quitting, trimming, cording, tec., and embroidering of many ingenious, tasteful and difficult designs, is the most perfect of all family sewing machines. Any one who will take the trouble to examine the merits of the different machines claiming attention, can soon discover whether we claim too much for ours. It would avail us nothing to make the above assertions if we were not ready to prove them, and all we mak is a trial, for observation alone can justly convey a clear impression of the many kinds of work of which our new family machine is capable.

Ed. Republican—Sir—Upon your request I have copied and here remit for publication, a number of condense, select sentences, of medical authors, which, if heeded by your domestic readers, may prove of much value to them. Please insert one each week.

A NOUNCEMENT FOR 1860

THE CINCINNATI GAZETTE. The Weekly Gazette: In announcing the Weekly Gasette for the ensu-ing year, the proprietors take pleasure in being able to offer it in full size, improved in quality, and at reduced rates. We have arranged, at a heavy expense, to distribute, as a present, to each subscriber, a copy of the

"Gazette Annual Register and Hand-Book of Information."

This work will contain a complete history of current events for the year 1868, comparative election returns for all the States, the vote of Ohio and Indiana by Townships, the organization of National and State Governments, names of members of the Legislatures of Ohio, Indiana and Kentucky, times for holding district or circuit courts, salaries of officers, and other general and valuable statistics. This part of the work will be edited by EDWARD W. MANSFIELD, Esq., whose name will be accepted as a guaranty of fullness and accuracy. It will also contain a

Horticultural Benertment

Horticultural Department, which will be edited by Dr. JOHN A. WARNER, well known as a prac-tical and sci-antific Borticulturist. This will contain directions for the selection and management of fruit trees, vines, etc., and will prove permanently The Register will be issued on or about the first of January, and will be sent free to all subscribers to the Weekly Gazette, whether subscribing previous or subsequent to the first of January. Those renewing their subscriptions will be treated as new subscribers, the intention being to make a present of this valuable work to every subscriber.

The Literary Department will also receive extra attention. A reasonable space will be given to the publication of first-class -tories, original and

The Largest and the Best.-The Weekly Gazette contains more reading matter than any other newspaper published in the United States, and, when this fact is considered in connection with the free gift of the Register, it is also the cheapest. Our aim is to maintain the full size of the Gazette, and improve it in quality. If we should reduce its size one-half, we could afford to sell it at half price, but this would be no inducement to subscribers. one-half, we could afford to sell it at half price, but this would be no inducement to subscribers.

An Entirely New Peafure,—Having no great political battles to fight during the year, we shall have more space for general and miscellaneouvending. This will be occupied in part by articles under the head of Personal Recollections, one of which will be published weekly. These will be written by eminent men in various parts of the West, who have already been engaged for that purpose. Our authors have been selected from the various professions, including Ministers, Lawyers, Politicians, Farmers, Merchants and Editors. Each article will have attached to it the name of the writer. Suffice to say now that the gentlemen whose services have been secured, occupy high positions, and have made for themselves national reputations.

Terms of Weekly Gazette: Ten to twenty,
Twenty to fifty,
Fifty to one hundred,
One hundred to two hundred,
Two hundred and over, Two hundred and over, 110

An extracopy will be sent to the getter up of a club of 10, and an additional copy for every twenty subscribers thereafter. For clubs of 50 the SEMI-WEEKLY will be sent instead of extra Weeklies, if preferred, and for clubs of 100 the DAILY will be sent, if preferred to the extra Weeklies, A copy of the "ANNUAL REGISTER" will be sent as a present to every subscriber to the Weekly.

This paper is printed on Tuesday and Priday of each week. It is the same size as the Daily and Weekly, containing thirty-six full columns of reading matter. Most of the reading matter prepared for the Daily and Weekly will be published in this edition. Persons who desire a paper oftener than once a week, but do not need a daily, will find this the cheapest and best paper published anywhere. Terms of Semi-Weekly Gazette: One copy, (104 No.'s.)

Two to five copies, each,

Five to ten copies, each,

Ten to twenty copies, each,

Twenty and upward, An extra copy will be sent to the getter up o cach club of ten and upward A copy of the "AN NUAL REGISTER" will be sent to each subscriber.

The Semi-Weekly Gazette:

The Daily Gazette: As a newspaper the Daily Gazette is not surpassed by any publication in the United States. It covers the entire field of News, Literature, Commerce, Manufactures, Agriculture and Amusements, and occupies it fully. Matter coming under these heads not found in the Gazette, will not be worth reading. Ir its Editorial Department the Gazette has all the excellence that a variety of first-class talent can impart to it. In principle, we need hardly say that it is Republican. Terms of the Daily Gazette:
